

DC Power Supply

Model: YE1710

FEATURES

- Adjustable range from 0V to ± 24 VDC.
- Double DC power output.
- Fine-tune.
- Volt-Meter Indicate output value directly;
- Suitable for supplying DC double power such as charge amplifier (± 15 V) and eddy Pre-amplifier (-24 VDC) etc.
- Small size; light weight; easy to use.

Output Power Range	0 to ± 5 V; ± 5 to ± 15 V; ± 15 to ± 24 V Continuous adjustment ; Switchable;
Output Current	200mA (each)
Power Supply	AC220V50Hz
Dimensions	240mmW \times 110mmH \times 235mmD
weight	2.3Kg
Output Type	Soldering Terminal
